

MASTÈRE SPÉCIALISÉ AIRPORT MANAGEMENT

RÉSUMÉ DE LA FORMATION

Type de diplôme : Mastère spécialisé

Domaine ministériel : Sciences, Technologies, Santé

Présentation

Content and objectives

Advanced Master in Airport Management aims at training specialists for airports, emphasizing on conception, design and operations, regulatory and economic environment, safety and security contents, environmental issues, quality of service and financial and strategic management of airports.

The "Advanced Master" Airport Management was set up in 1989 by ENAC in response to requests from professionals in this field. Airports throughout the world have faced major changes in the past years: The liberalisation of air transport, the opening up of ground handling to competition, the wide range of activities involved in airport operations, the increasing issues of security and environmental impact, and the competition between different airports. All those changes call for new highly skilled managers to run and develop airport throughout the world.
